State of New Hampshire

To the inhabitants of the Town of Littleton qualified to vote in Town Affairs

You are hereby notified to meet at the Town Hall and Police Court Room in Town Building on the 14th day of March next, being the second Tuesday of March, at nine o'clock in the forenoon, to act upon the following subjects:

Article 1 To choose a Town Clerk, three Selectmen, Town Treasurer, a Collector of Taxes, an Auditor, an Overseer of the Poor, an Agent to prosecute the violation of the Liquor Law, three members of the Board of Trustees of the Public Library, each for the term of three years in the place of Ida T. Eastman, James J. Harrington, Lafayette Bean term expired, Constable and two Road Agents.

Article 2 To raise and appropriate such sum of money as may be necessary for the laying out and construction and repairing highways and bridges, for the payment of the town debt and interest, for the maintenance of the poor, and for all other Town charges.

Article 3 To see what sums of money the town will appropriate for the observance of Memorial Day.

Article 4 To see what action the town will take for the purpose of securing State aid for highways, in this town, under the provisions of an act to provide for state aid and for the expenditure of other public moneys in the permanent improvement of main highways

LITTLETON TOWN WARRANT

2

throughout the State approved February 24th, 1905, and any amendment thereto to raise and appropriate such sums of money as may be deemed advisable and to make suitable appropriations under said act or acts.

Article 5 To see if the town will raise and appropriate \$300 00 for the support of the Military Band.

Article 6 To see if the town will vote to authorize the selectmen to employ an expert road builder to take the place and perform the duties of the highway agents in the town, and commissioners in the village district, so far as it relates to roads.

Article 7 To see what action the Town will take in regard to purchasing two road machines and to appropriate money to purchase the same.

Article 8 To see if the town would vote to sell the lower Park adjacent the Driving Park to the Greenwood Cemetery Association, for the sum of \$2,000.00 and appoint an agent to transfer the same.

Article 9 To hear the report of Agents, auditors committees or officers hertofore chosen and pass any vote relating thereto.

Article 10 To choose any other necessary town officers for the year ensuing and to choose or elect any agents or committees which may be necessary to carry into effect any vote that may be passed under this warrant.

Article 11 To transact any other business that may legally come before said meeting.

Given under our hands and seal his 25th day of February, 1911.

O. A. MOONEY,
F. H. ENGLISH
GEORGE A. VEAZIE
Selectmen of Littleton.

Littleton, N. H., January, 1911

WATER AND LIGHT REPORT

6

This is to certify that I have this day examined the foregoing account of Fremont M. Everest, Treasurer of the Water and Light Department of the Town of Littleton for the year ending December 31, 1910 and found them correct and properly vouched and that there is in his hands as treasurer the sum of \$156 95.

(Signed)

F. E. Bowles, Auditor.

Littleton, N. H., Feb. 20, 1911.

Examined and found correct,

F. E. Bowles,

Auditor,

February 17, 1911.

Chief Engineer's Report

To the Honorable Board of Commissioners of the
Littleton Fire District:

Gentlemen: For the year ending January 31, 1911, there have been ten bell alarms and twenty-seven still causing damage to property of \$1190 00 and a cost to the precinct of \$148 75. The causes of alarms have been 31 chimney fires, one call from Behlethem, one brush fire, two caused by lightning, one by gasolene stove and one unknown.

In the performance of their duties this department has laid 2000 feet of hose 1000 of which were used. 6 hand chemicals and 2 tanks for the chemical engine.

BELL ALARMS, 1910

April 13—Box 29, Chimney fire, no damage, South St.

April 29—Box 54, J. E. Eastman house, Union St., caused by lightning, damage, \$150.00.

MONEYS NOW IN SIGHT FOR EXPENSES

As shown in Treasurer's report as on hand,
and from literary fund, dog tax and tuitions
for 1911

\$2,200 00

MONEYS TO BE RAISED:

For interest on debt and on moneys borrowed in anticipation of taxes	1,000 00
For text books and supplies	1,400 00
For balance to cover estimated expenses	18,800 00
Money in sight for expenses,	2,200 00

\$23,400 00

M. H. RICHARDSON,

GEORGE HOULE,

Finance Committee

February 1, 1911.

Report of the Superintendent

Februarv 15, 1911

Gentlemen of the Littleton School Board :

In the able report submitted by the superintendent of your schools in 1908, the following recommendations are made and their need plainly shown :

1 Additional school accommodations in this village preferably a new high school building.

2 Better ventilation of all rooms, the Kilburn building being admitted the best ventilated, but not suitable for more than 40 in a room.

3 Better light, either in quantity or arrangement, in nearly all rooms.

4 A basement and modern sanitary equipment for the high school building.

5 New closets and more reliable automatic flushing in the Kilburn building.

6 Modern heating, ventilating and sanitary equipment of the Apthorp building.

7 A closet for each sex at every one of the rural buildings.

8 Painting for some buildings, especially the high school.

9 Better school furniture in a large part of the buildings, both village and rural.

10 Higher salaries for teachers, with economy in other expenses.

Careful inquiry shows the following results :

Nos. 1-5. Nothing.

6 The Apthorp building is well but probably not economically heated by two furnaces. As a means of ventilation, the plant, working at a maximum efficiency which is rarely reached, might supply fresh air for not more than 12 in a room. The sanitaries and plumbing are unchanged.

7 All rural buildings needing two closets have them, possibly excepting one.

8 Painting buildings on the outside for protection has been well attended to, but the interiors are probably in no better condition than three years ago. Many, notably the high school, need thorough renovation, some would be passable with very thorough cleaning.

9 Several rooms have been provided with more modern furniture in recent years, but we still have three rural schools with antique wooden desks and two rooms used for high school purposes are practically without furniture. Chairs and tables are lacking throughout the town. On the whole it is probable that additions have not kept pace with wear and tear, and that the present equipment is in worse condition than that of three years ago.

10 The amount paid teachers has increased 6.3 per cent. in three years, mostly owing to necessary additions to the teaching force. The improved methods of purchasing and accounting, introduced and encouraged by your board, furnish the best means of insuring economy along all lines, but an unsatisfactory and overloaded plant must always mean large running expenses.

SCHOOL MEMBERSHIP.

The accompanying table will supply interesting facts concerning each school and each term for the past year.

A careful study is urged. In addition to the facts

given there, the following are added:

	Winter	Spring	Fall
Average attendance	695.94	656.24	763.39
Average tardy marks per week	54	47	50
Average visitors per week	26	13	25

Regular and punctual attendance is a matter in which the home shares responsibility with the school. Earnest effort on the part of both is needed to keep the evil of irregular attendance and tardiness at a minimum.

During the last three year the average membership has increased about 70, from 760 in the fall of 1907 to 829 in the fall of 1910. This increase is wholly in the village, the rural schools numbering 102 last fall against 104 three years ago. Last fall the Apthorp building was filled full in the two upper rooms, which have two grades in a room, and full enough in the 1st and 2nd grade rooms. The Kilburn building had an average membership of 193 and at one time had over 200 children. As it is constructed, it should never contain more than 160 and for good teaching not more than 140. The number, in the high school grades was as great, far too many for health or good teaching, although on account of the large size of the rooms in both buildings, it was possible to seat them all.

As a measure of relief three recent graduates of the high school were employed as assistants, two in the Kilburn building and one for the high school grades. They give excellent help in relieving the teachers of much drudgery in handling material, correcting papers etc, and to a slight extent in giving instruction under close supervision of the regular teacher. For further relief, in the middle of the term another teacher was hired, and a vacant entry on the third floor used as a room for part of the 5th and 7th grades. This proved a great help, and now except for the handicap of pre-

vious adverse conditions, the instruction of these grades may be considered as progressing well. In the first grade 66 children made more than enough work for the teacher and one assistant, and the 2nd grade of 45 was without extra help. As it was impossible to find a room, nothing was done in the fall term. At the beginning of the winter term an associate teacher was employed and put in charge of a division of each grade, being made responsible for their progress and allowed to work as independently as possible under the conditions. Such crowding of work is very awkward, but the improvement in progress of all the children concerned has been marked and gratifying.

The membership for the winter term about 40 less than in the fall, one third of the decrease being in the rural school and one fourth in the high school, so the village grades are not seriously affected. New pupils are already coming in, so that the large numbers of the fall are likely to be kept up, at least so far as the village is concerned.

RURAL SCHOOLS.

Of the seven rural schools little need be said. In January they registered 88 pupils, distributed as follows: North Littleton, 26; Pattenville. West Littleton, Slate Ledge, and Meadows, 12 each; Mann's Hill, 11; and Powers, 3. One building needs thorough repair and several need new floors and minor repairs. Proportionately the housing and equipment are rather better than the village accommodations. In tone, scholarship, and general conditions they are better than the average country schools. Very little can be done to improve the general condition of such schools until the town is

ready to undertake a radically different method of managing rural schools.

GROWTH IN TEN YEARS.

The following table furnished by the kindness of the state superintendent may be of interest:

Year	School Census	Average Membership	Annual Cost per Pupil
1901		606	\$24 11
1902		572	18 10
1903		685	15 11
1904	730	683	13 64
1905	743	713	20 67
1906	752	747	21 74
1907	821	740	23 60
1908	784	756	25 35
1909	811	752	25 57
1910	833	758	25 41

In the accompanying letter it was stated that the census for 1901-2-3 was so obviously incorrect that it was not put in. It will be seen that the cost per pupil after a rather unaccountable fluctuation has remained quite constant for several years. The membership has increased 25 per cent. in ten years. In the fall term of 1907 the membership was 760, last fall, 829.

HIGH SCHOOL

Principal Speare furnishes the following statement:

“The work of the High school for the year has continued along the lines laid out, without changes in curricula. Two new teachers in addition to the principal have been employed. The year on the whole has

gone pleasantly and smoothly and the character of the work has been reasonably satisfactory. The boys and girls of Littleton who attend the High School are showing themselves worthy of the cost of their education.

A lamentable feature is the falling off in attendance, due to a variety of causes. Every pupil who leaves school represents a distinct loss difficult to estimate and therefore all the more regrettable. We should use every means in our power to secure a larger and more steady attendance. Such means include the enrichment of our courses by the addition, in the near future, let us hope, of courses in domestic science, and manual training; by more attractive school rooms and surroundings, and by a larger equipment.

There is special need of more adequate equipment. The furniture of the school rooms is not merely unsatisfactory, it is positively lacking. We have not a sufficient number of class rooms. Our laboratory facilities are meager and less than our needs. These are conditions that demand serious and immediate attention. It should be realized that our school equipment is below the standard of the work done.

It is the aim of the teachers to make the school minister to the life of the pupils, and the public should co-operate. The High school stands for cultural, moral, and social ends. It is our hope to make the life of the school room minister to these ends. The school keeps its place on the approved list of the College Entrance Examination Board, and the state department at Concord. The future looks bright. It only remains for the citizens to do their share."

PRESENT CONDITIONS AND NEEDS.

The work of your teachers has a deservedly high

reputation. State Superintendent Morrison was able to give an unqualified commendation of the class room work, at the same time that he felt obliged to speak of the anaemic appearance of the pupils. Three years ago the High school teachers could testify that each entering class was better prepared than the preceding one. That record still is true in spite of the increasing difficulties caused by external conditions, and speaks volumes for the excellence of the work done. In the High School itself an increasing number are proving able to undertake the work of the course in four years instead of five. There will be no lessening of effort to maintain this high standard, but the community does itself and its most faithful servants injustice when it demands good work under any but the best conditions. The improvements needed three years and more ago are doubly needed now. The problems before the community are three:

- 1 To provide healthful surroundings for all school children. No makeshift or half way means should be considered for a moment.

- 2 To provide rooms so that no teacher be given more children than she can do good work with. A new high school building is in many respects the preferable way of solving this problem.

- 3 To provide sufficient and suitable furniture and equipment. The High School is especially destitute, but much is needed throughout the town.

The quality of school surroundings ought to be on a par with the best homes in the community, not merely the average, but the best. The business of making good citizens means the cultivation of high ideals and good habits as well as able mentality, and the conscious and unconscious influence of the environment is a powerful factor in the child's development.

The problems to be solved are difficult but imperative, and need wise handling if the community is to include its school plant among the many things of which it may justly be proud.

In conclusion I desire to express my appreciation of the kindly attitude of all parties, people, school board, teachers and children toward the new management of the schools, and for the peace and good will that has prevailed. There has been a minimum of trouble, and even the discussions on school buildings, though vigorous are healthy, and should lead to a better knowledge and truer interest in this most important of public affairs, the education of the children.

Respectfully submitted,

D. F. CARPENTER.

Report of the Librarian

To the Board of Trustees:

During the year four hundred and twenty-five volumes have been added to the Library accession list. Of that number three hundred and twenty-seven was added from the appropriation fund. Thirty-four volumes being given by Rev. J. E. Johnson. The four volumes of the Stearn Genealogy of New Hampshire by Mr. Everett Howe. Six volumes by the Historical Club and single volumes by authors of books and Mr. D. C. Remich, C. H. Greene, Miss S. B. Farr, Mrs. Howard Ballou, and Raymond Bellows.

Twenty-five books have been replaced.

The usual magazines given by Mr. Remich and Mrs. W. H. Mitchell have been received.

20824 books have been charged during the year, 18564 being books of Fiction and the remaining 2260 being the Non-Fiction, covering the various classifications.

J. E. SMITH,
Librarian.
